BIOGRAPHY

I am an Avant Garde/Experimentalist Musician and Conceptual Artist. Almost all of the music created by the two bands in which I play and produce-[THE EXPLORATION PROJECT](#) and [THE TAMURA-PEPE-RIFKIN-HALL PROJECT](#) are in the Free Music genre. All the music is based on spontaneous communication and improvisational skills.

The Exploration Project is more of an ambient band of musicians. While The Tamura-Pepe-Rifkin-Hall Project is more of an aggressive avant garde/ experimental musical group.

Our musical membership has included the following people

- Scott M Rifkin- DeCava Ten String Doubleneck Electric Guitar and Synthesizers.
- Matt Posner- Poems/Lyrics/Words and exotic instruments
- Chris Peters- Theremin/ Synthesizers and Keyboards.
- Cesare Papetti- Drums/Percussion
